February 24-25, 2017

CODE FOR THE KIDS

THE HACKATHON

The Illinois Institute of Technology invites emerging technology talent from Illinois universities, child welfare experts, foster care families, and local business leaders to **Code for the Kids, the Hackathon**, a new 2-day event to design and build technological solutions to improve the lives of Illinois foster children and families.

February 24 & 25, 2017 | Illinois Institute of Technology
